

20mm bleed area

Spine  
29mm

12mm

Spine type starts 12mm down from the top to avoid cloth turn-ins.

Back board to view: **252mm x 188mm**

Design should start 9mm in from the left, to avoid blocking in the cover hinge.

**Add 20mm bleed** on three edges if the design bleeds. This will not be seen but allows for the design to wrap around the board and under the endpaper.

Front board to view: **252mm x 188mm**

Design should start 9mm in from the left, to avoid blocking in the cover hinge.

**Add 20mm bleed** on three edges if the design bleeds. This will not be seen but allows for the design to wrap around the board and under the endpaper.
