

How the Course Works

Live online classes will take on Zoom and include real-time exercises, tutorials, demonstrations, group discussion and feedback.

We use Padlet for our courses, where all course materials will be held, including recordings from each week and a student gallery for uploading your artwork between sessions.

Participants will receive handouts a week before the course start date and login details the day before – these will be sent to the email address linked to your Paypal account so please email education@houseofillustration.org.uk as soon as possible from your contact email address if this is different to the one linked to your Paypal account.
